**Threshold Audio**

STASIS-R 3.0 Stereo Control Preamplifier

for product information go to:  
<http://www.threshold-audio.com/products/stasis3.0.html>

This unit is sonically very considerably improved as it has been subject to DCT,  
 The next step is to change the RCA CD input and the RCA output connectors for DCT ones made by Eichmann of pure copper connector.  
 The last change to be made is to replace the IEC power input  
 The factory fitted IEC has an inbuilt filter which can only be detrimental to the sonics of the unit.  
**Sell for £850 and includes a 1.2m LAT AC-2 power cord RRP £159**
